Health Report

State of New Hampshire, Department of Health and Welfare

December 29, 1965

Mrs. Lillian Thompson
Town Clerk, Stark, N. H.

To the Citizens of Stark:

During the year 1965, 86 visits were made in the community, and these visits are classified as follows:

Administration & Promotion	5	Health Supervision	48
Antepartum	1	Premature	2
Cardiac	9	School	5
Crippled Children's Services	11	Sight Conservation	1
		Tuberculosis	4

Five children attended the Orthopedic Clinics in Berlin, one child attended the Pediatric-Cardiology Clinic in Lancaster, sixty-three individuals were Heaf tested for tuberculosis detection.

With the advent of Medicare, all local communities will find themselves directly involved. Local efforts should be directed toward the problems of organizing and implimenting personal health services. Is your community ready?

Medicare is the bringing together of people needing and providing service. A major contribution to the health care for the aged lies in the provisions for home care benefits.

Communities need to plan and develop new patterns of services geared to meeting the needs of the chronically ill, aged and infirm persons living in their own homes. Care in the home often saves money for the family and the community.

All citizens of your community must work in a spirit of partnership in recognition of a common purpose—the assurance that health care of high quality will be part of the security to which all Americans can look forward in the latter years of their lives.

It has indeed been a pleasure to work with the Citizens of Stark, and I extend my appreciation to them for their cooperation during the past year.

Respectfully submitted,
ELEANOR D. KENNEY, R. N.
Public Health Nurse

Report of the Superintendent of Schools

I feel it important that the citizenry of Stark know the ramifications, implications, etc. regarding our Federal programs. Groveton, as you know, and very, very sagaciously so, voted unanimously to accept the provisions under Title I of the Education Act of 1965. Therefore, with this in mind your Superintendent was commissioned for an interview regarding drawing up a prospectus for a remedial program. This has been done. We feel, however, that the program will start with the lower grades and will gradually be implemented into the high school area, but knowing that Stark has students in Grades 7-12, I felt it important that we should brief the general populace regarding this general program. As you know, the North Country has always had a very high incidence of reading deficiencies. I do not care what profession or job or vocation that one aspires to or decides on, he must be able to read. Therefore, the reason for the Board implementing this reading program. Along with this, we are starting next year on a rather ambitious reading program in the First Grade using the I.T.A. or Pitman Initial Teaching Alphabet. Your Superintendent was privileged to attend a Workshop run by our Union and sponsored and conducted by Mrs. Ruth Simpson who is currently using this reading system in the St. Johnsbury Elementary School. We actually saw students who had extremely low intelligence quotients reading on a Second and Third Grade level. If this program proves its worth, which I have every indication and hope that it will, I would like to have our Stark Board see this information firsthand and possibly implement same in 1967.

Other governmental programs that concern our Union and, indirectly, Stark are Title II and III. Title II basically will be a library resource center from which Stark, of course, will naturally benefit. Title III, if it goes through and is approved, will serve the Woodsville, Littleton, White Mountain, Gorham, Berlin, Groveton, and Colebrook Unions and will be an enrichment resource area implementation. This program has not been accepted as yet, however, we are in the second writing of the treatise and, hopefully, by March 1, will have received more word as to its acceptance and, of course, public notices will be forthcoming as to our progress.

This year, as of last, we have taken advantage of the educational programs on Channel 8 covering Art, Music, and

Social Studies. This is ten o'clock Monday through Thursday. We were, also, able to supplement this program with Course Outlines and teacher manuals to go along with this series at no charge to the school. This is an experimental program and WENH Channel 11 is sponsoring it.

With the help of Phil Stearns and permission of the Board, we have resurfaced and recovered all of the old desks with a new formica top which will give us many, many more years of good hard service.

The Industrial Arts Department of Groveton High School furnished the school with a T.V. stand and a cutting board for Mrs. Miles which was sorely needed in her Hot Lunch Program. This was at no charge to the District.

We have supplemented again this year additional reference materials for our students and have patterned our academic program after Groveton so that our students when they go into the 7th Grade will have had an adequate background to coincide with Grades 1 - 6 in the Elementary System. This makes the period of adjustment much easier.

We have added additional volley ball standards and net so that our students may have a definite athletic experience.

The Board granted the request of the Superintendent to allow members of your faculty to visit the Groveton Schools so they may observe different techniques and different materials that are used in the Groveton System.

We have set up in our Union this year four Workshops. These Workshops are in the areas of Science, English, Mathematics and Social Studies. As of this writing, we have two, one in Science and one in English. These have been most informative to your teachers as the Workshops are divided into Elementary and Secondary. Both have consultants and guest lecturers in each area. It gives the teachers a chance to see what other schools are doing, not only in our immediate Union, but in other areas in the state and New England. Even though some of the new things and new programs are not applicable to our area, it is certainly wise to study these programs and keep abreast of the new things that are being offered in academic programs. The teachers then can take from the programs observed things that will be apropos and feasible for their individual classrooms. Of course, of very high value is the interchange of ideas gathered over coffee breaks and the lunch served after the final presentation.

This has been a very exciting educational experience for us all this year with the governmental programs and with our Workshops. However, the staff is to be complimented and

the Board complimented in the very sagacious way they have approached these programs. I feel the students will be greatly benefited now and in the future.

Respectfully, submitted,
LINWOOD E. CLARKE
 Superintendent of Schools
